Soup bones 2.94kg
16.89kg Total

Based on this side being 125kg dressed weight and the choices we made regarding bone included in some of the cuts and boneless cuts ,there is approx 26kg difference between the dressed weight and the delivered weight with the bones included in the delivered weight.

NB: The number in brackets beside the cuts is the number of steaks/roasts included in the side of beef.

Warmly,
Mark and Sue Menkens
